For seating questions, please call Trisha Salerno at 646.497.2606 or email tsalerno@bcrfcure.org.
The Breast Cancer Research Foundation (BCRF) advances the world’s most promising research to eradicate breast cancer. Founded by Evelyn H. Lauder in 1993, BCRF has raised more than $500 million to fuel discoveries in tumor biology, genetics, prevention, treatment, survivorship and metastasis, making it one of the largest non-governmental funders of breast cancer research in the world. This year, BCRF is investing $58.6 million in research to support more than 220 researchers at leading medical institutions across six continents, including $11.6 million to the international Evelyn H. Lauder Founder’s Fund focused on metastasis. By spending 91 cents of every dollar on research and public awareness programs, BCRF remains one of the nation’s most fiscally responsible nonprofits. BCRF is the only breast cancer organization with an “A+” from CharityWatch, and has been awarded Charity Navigator’s highest rating of four stars 12 times since 2002. For more information, please visit: www.bcrfcure.org.
